## Bilateral Meetings

- Thursday 13th December 12:30 - 14:30

### Description

Media Board LLC. is a new media company, founded in 2015. Media Board's main activity is online marketing on self-created advertising space and realization of client's marketing goals. We created WiFi Billboard system, and its designed for ad hoc campaigns, with limited duration, but also for large long-term advertising, subject to frequent changes, lasting for months or a year into a campaign. Through the system you can give an opportunity to a potential client to familiarize with your product, service, activity or event, with a well created commercial or advertisement, a survey, a download link to your application, or through a unique and efficient redirection to your website or desired web location. After that, it's up to you to lead the user where you want him to go. If you want to create and manage your own campaign, we are here to provide you with an unlimited support.
